# MISSION

---

**Developing a community-driven recovery and reintegration program  
for Ukrainian society**

---

# VALUES AND PRINCIPLES

---

**People first** – focusing on each person's individual needs, considering their characteristics, age categories, gender and other factors.

**Holistic approach** – a combination of medical, psychological, social and educational services to ensure harmonious recovery.

**Cooperation with local community** – active participation of the local community in the center's activities; cooperation with volunteers, local organizations and businesses.

**Life-long learning** – preparing IDPs to reintegrate, helping them develop new professional and life skills.

**Transparency** – informing the public about the center's activities, a transparent reporting mechanism to donors and partners.
